PROJECTS

PulseCore Healthcare – Healthcare Web Platform

[<https://pulse-core-healthcare.vercel.app/>]

- Designed and developed a full stack healthcare website to present medical services, information and patient-facing features.
- Built a clean, responsive interface with structured navigation for easy access on desktop and mobile devices.

Student Panel – Academic Progress & Daily Needs Tracker Developed a student-focused platform to track academic progress and manage daily needs across school, college and university settings.

- Implemented dashboard-style modules for organising tasks, progress and academic information in one place.

Expense Tracker Web Application

- Built a web application to record, categorise and monitor income and expenses for better personal budgeting.
- Implemented data entry, summaries and expense overview features with a simple, user-friendly UI.

Ember & Oak – Café Website

[<https://ember-oak-rose.vercel.app/>]

- Created a modern, visually appealing café website featuring menu, ambience and contact sections.
- Focused on responsive layout, clean UI design and smooth user experience across devices.

Personal Portfolio Website

- Version-controlled all projects using Git and GitHub.
- Designed and deployed a personal portfolio showcasing projects, skills and certifications to recruiters.
